The mark is to be centered on the port and starboard sides of the funnel in a fore and aft direction 12½ feet below the top of the funnel. The device consists of a circle 11 feet in diameter, at the outer edge of which is a 1-inch black stripe followed by a 24-inch white band with the words "American Mail" in the upper portion of the band and "Line" in the lower portion. The words are composed of 14-inch black letters in block type spaced evenly in the center of the band. A 1-inch black stripe follows the inner edge

of the white band and the remainder of the circle is white. Superimposed on the white circle and extending a short distance beyond is an American Mail Line house flag, similar in design to that described above but without the letters "A M L" on the red stripe, which is flown from a buff-colored staff slanting forward at an angle of about 20 degrees with the vertical. The upper part of the staff is projected onto the inner black stripe and the white band and the lower portion of the staff crosses under the white band and inner and outer black stripes, extending 3 feet beyond the outer diameter of the circle.

Colored scale replica drawings of the house flag and of the funnel mark described above are on file with the Division of the Federal Register.

It is my opinion that the examination of less than 1 package of every 10 packages, but not less than 1 package of every invoice, of the merchandise hereinafter described, if such merchandise is (1) imported in packages the contents and values of which are uniform, or (2) imported in packages the contents of which are identical as to character although differing as to quality and value per package, will amply protect the revenue:

Therefore, by virtue of the authority contained in sections 499 and 624 of the Tariff Act of 1930, as amended (19 U.S.C. secs. 1499 and 1624), I do by this special regulation permit and authorize a less number of packages than 1 package of every 10 packages, but not less than 1 package of every invoice, of the above-described merchandise to be examined.

This special regulation shall not be construed to preclude the examination of packages in addition to the minimum number hereby permitted to be examined if the collector or the appraiser shall deem it necessary that a greater number of packages be examined.

In view of the foregoing, § 14.1 (b), Customs Regulations of 1943 (19 CFR, Cum. Supp., 14.1 (b)), as amended by T. D. 50959 (8 F.R. 15361), T. D. 51090 (9 F.R. 7743), and T. Ralph P. Corson of 87 Winter Street, Rochester, New Hampshire, began construction in November, 1944, of a small building to be used as a repair shop at 85 Winter Street, Rochester, New Hampshire without authorization from the War Production Board, at an approximate cost of \$8,800 which exceeded the limit permitted by, and was in violation of Conservation Order L-41. Lucien Paradis, 19 Maple Street, Rochester, New Hampshire, acted as contractor for this construction. Ralph P. Corson, Lucien Paradis, their successors or assigns nor any other person, shall do any construction on the premises at 85 Winter Street, Rochester, New Hampshire, including putting up, altering, or finishing the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Ralph P. Corson, Lucien Paradis, their successors or assigns, from any restrictions, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same

may be inconsistent with the provisions hereof.

SECTION 1. *Explanation of the relation of this supplement to Food Products Regulation No. 2.* Not all of the provisions affecting maximum prices for sales of processed grains are stated in this supplement. Those which are not specifically set forth here are stated in Food Products Regulation No. 2, and they are just as much a part of this supplement as if they were printed here.

The particular sections of Food Products Regulation No. 2 which are applicable to this supplement are listed at appropriate places in the provisions which follow. When any applicable section of the regulation is amended, the amendment is also applicable to this supplement.

SEC. 2. *Applicability.* (a) Except for those sales exempted by paragraph (b) of this section, this supplement shall apply to all sales and deliveries within the United States of "processed grains" as herein defined, whether immediate or future.

(b) *Exempt sales*—(1) *Export sales.* The maximum price for export sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation, as amended.

(2) *Emergency purchases.* Section 1.2 (a) of Food Products Regulation No. 2, dealing with the exemption of emergency purchases, is applicable to this supplement.

(3) *Retail packages.* This supplement shall not apply to sales of processed grains which have been packaged for sale at retail in containers holding five pounds or less.

(4) *Registered feeds.* This supplement shall not apply to the sale of any mixture of more than one grain, partially or wholly processed, for which a guaranteed analysis has been filed pursuant to the provisions of section 3.4 of Maximum Price Regulation 585 or which is registered as a branded feed in the state in which it is sold.

(5) *Processed grains for human consumption.* This supplement shall not apply to processed grains manufactured for human consumption or for any purpose other than for feeding to animals or poultry or for mixing for that purpose.

(6) *Products manufactured from other than whole grains or from grains previously processed.* This supplement shall not apply to products that have been manufactured from other than whole

grains or from grains that have been previously processed: *Provided*, That cleaning and grading shall not be considered as processing.

SEC. 3. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall in the course of trade or business, buy or receive, any processed grain covered by this supplement at a price above the maximum price established by this supplement nor shall any person agree, solicit, offer or attempt to do any of the foregoing: *Provided, however*, That certain agreements to increase prices are permissible, as provided for in paragraph (b) of this section.

(b) *Adjustable pricing.* Section 1.2 (b) of Food Products Regulation No. 2, dealing with adjustable pricing, is applicable to this supplement.

(c) Prices lower than the maximum prices established by this supplement may, of course, be charged or paid.

SEC. 4. *Evasion.* The price limitations set forth in this supplement shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to processed grain, alone or in conjunction with any other commodity, or by way of commission, service, transportation or other charge, or discount, premium or other privilege or by tying agreement, or other trade understanding, or by any other means.

SEC. 6. *Applicability of certain provisions of Food Products Regulation No. 2.*

(a) Provisions relating to the following matters are set forth in Food Products Regulation No. 2 and the sections of that regulation listed below are applicable to and made a part of this supplement as though set forth herein in full.

(1) Enforcement: Section 1.2 (e).

(2) Licensing: Section 1.2 (d).

(3) Protests and petitions for amendment: Section 1.2 (f).

(b) In addition, various other provisions of Food Products Regulation No. 2 are applicable to and made a part of this supplement. References to such provisions are made at appropriate points throughout this supplement.

SEC. 7. *Documents, records and reports.*

(1) Every seller and every purchaser in the course of trade or business, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of his maximum prices and records of all sales and purchases of 2,000 pounds or more of processed grains covered by this supplement, including the date thereof, the name of the seller and purchaser, the kind of commodity, the grade and quality upon which the maximum price was based, the price paid or received at buyer's receiving point, and the quantity sold. Every seller shall post his current maximum prices for processed grains in his place of business so as to be readily accessible to his customers.

(2) Every seller shall for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, keep a record of all processed grains manufactured by him showing (1) their names, (2) all base prices of the whole grains processed and the computations by which they were determined, and (3) all processing margins and the computations by which they were determined.

(3) Upon demand every such person shall submit such records to examination by a duly authorized representative of the Office of Price Administration.

SEC. 8. *Base prices for processed grains.*

(a) Base prices are not maximum prices for sales under this supple-

ment. They are the prices to which you may add the markups and other additions provided by this supplement in determining the appropriate maximum price for the sale of processed grains. You determine the appropriate base price for any sale under this supplement by ascertaining your base price for the kind of grain or grains being processed at the time of your receipt of the buyer's order for the processed grains, in accordance with the methods set out in paragraph (b) of this section. If the lot for which you are determining a maximum price is processed from more than one grain or is a combination of one or more whole grains and one or more processed grains, you determine your base price for such lot by (1) multiplying the weight of the different grains in the combination by their base prices, (2) adding the figures resulting, and (3) dividing the sum of them by the total weight of the lot.

(b) You determine your base price for any grain under the provisions of the supplement or regulation applicable to the particular kind of grain by one of the following methods:

(1) You may take as your base price the base ingredient price for such grain which you are permitted to use under the provisions of Maximum Price Regulation 585.

(2) You may take as your base price the withdrawal price for the whole grain determined in accordance with the provisions of section 2.3 of Food Products Regulation No. 2, relating to withdrawals from a place of business.

(3) You may take as your base price the maximum price your supplier could have lawfully charged you for the sale of the particular lot of grain delivered to the point at which you process it.

(4) You may calculate a base price for the different grains for which you use this method, once each week. You select a day for calculation and recalculate on that day each week thereafter (except that when that day falls on a legal holiday, you recalculate on the next business day). Your base price is a weighted average of the maximum prices you could have paid your suppliers for your more recent purchases of such grain. You compute that average as follows:

(i) Whenever you begin to use this method, you determine as to your last receipt of the grain and as to all of your receipts of the grain for the twenty-eight days preceding such last receipt, your supplier's maximum price on the sale to you delivered to your plant for each such sale.

(a) If all such receipts were delivered to you bulk, you then multiply each sum of the price by the number of tons purchased, add the results, and divide by the total number of tons in these receipts.

(b) If your receipts which you use in figuring a base price were delivered to you, some bulk and some sacked, before taking an average of the maximum prices, you must adjust your supplier's maximum price to you so that all such prices will reflect a bulk price. You do this by subtracting from the maximum price the amount included in such price

for the sacks, if you know the amount, or, if you do not, the reasonable market value of the sacks at the time of the sale. You then proceed as indicated in (a) above to determine your weighted average price.

(c) The weighted average per ton price thus determined is your base price, bulk, for the first week for all your sales of such grain.

(d) Upon the next and all succeeding calculation days, you refigure your base price for one week in the same manner, referring, however, only to your last receipt and all receipts of such grain during the fourteen day period preceding such last receipt.

(ii) If you wish to discontinue using this weekly price method, you may do so only if on the next recalculation day, you take an inventory of such grain. You may then treat the amount in inventory as a receipt on which your supplier's maximum price on the sale to you is the base price you would compute for the succeeding week.

(5) You may take as your base price the base price of the particular kind of grain at the point at which you process it.

(6) If the whole grain is not subject to price control, you may take as your base price the reasonable market value of such grain at the point at which you process it.

Sec. 9. Processing markups for processed grains. The markup per ton for processing which you may add to the appropriate base price to determine your maximum price on the sale of any commodity subject to this supplement is as follows:

(a) *For coarse ground processed grains.* (1) For coarse ground processed grains or a combination of coarse ground processed grains, \$2.50 per ton.

(2) For a combination of whole grain and coarse ground processed grains, you determine your markup per ton by multiplying \$2.50 by the percentage of coarse ground processed grain in the mixture.

(b) *For processed grains other than coarse ground processed grains.* For any other processed grain, you determine your markup per ton as follows:

(1) *If you made sales during the base period and have records of such sales.*

If you made sales of the processed grain being priced during January 1943 and you have records of such sales, your markup per ton shall be \$2.50, plus the amount of a differential determined as follows: For every day during January 1943 on which you made sales of the product being priced and you also made sales of your lowest priced processed grain produced from the kind of grain or grains used in the commodity being priced, determine the differential between your selling price for the product being priced and your selling price for your lowest priced processed grain as described above, to the same class of purchaser and in similar quantities. If you made no sales on any such day, you may use a bona fide offer which you made to sell such product on that day. You may take either the simple or the weighted average of such differentials as the differential that you shall use in determin-

ing your markup under this subparagraph.

If you made no sales or bona fide offers to sell during January 1943 you shall substitute for January 1943 the most recent month prior to January 1943 in which you made any sales or bona fide offers to sell.

If you determine a markup under this subparagraph you must within ten days of the time when you first use it report such markup to the district office of the Office of Price Administration for the district in which the processing plant is located. Such report shall give the following information:

(i) Your name.
(ii) The address to which communications are to be sent.

(iii) The location of the processing plant.

(iv) Your proposed markup and the method used in computing the same.

(v) A description of the processed grain or grains for which a markup is reported, and a description of the lowest priced processed grain or grains sold by you.

If you have determined your markup in good faith pursuant to the provisions of this subparagraph, you may after reporting it continue to use such markup subject to disapproval by the Office of Price Administration at any time.

(2) *If you did not make sales during base period or do not have appropriate records.* If you did not sell the product prior to or during January 1943 or if you do not have the appropriate records with respect to sales required by subparagraph (1) above, you must before making any sales file an application with the district office of the Office of Price Administration for the district in which your processing plant is located for the establishment of a markup on your sales of such products. Such application shall give the following information:

(i) above, you must before making any sales file an application with the district office of the Office of Price Administration for the district in which your processing plant is located for the establishment of a markup on your sales of such products. Such application shall give the following information:

(i) Your name.
(ii) The address to which communications are to be sent.
(iii) The location of the processing plant.

(iv) Your proposed markup and the method used in computing the same.

(v) A description of the processed grain or grains for which a markup is requested and a description of the lowest priced processed grain or grains sold by you.

Pending the approval of a maximum markup, you may sell such processed grains at a maximum markup of \$2.50 per ton.

(3) If your proposed markup under subparagraphs (1) or (2) is disapproved, you may by petition in writing request that this determination be reviewed in which case the file shall be transmitted to the appropriate regional office for review (if the petition was denied by a district office) and to the national office (if the petition was denied by a regional office) and the regional office or the national office, as the case may be, shall review and by order notify the processor of its determination.

(4) The administrator, any regional administrator or any district director, authorized by the appropriate regional administrator, may approve markups de-

termined and filed in accordance with the provisions of this supplement, and may disapprove markups upon finding that they have not been correctly determined or that they are in excess of the markups of other sellers for the same or similar products and may in such cases establish the markups that shall thereafter be used.

Sec. 10. Maximum prices for sales by processors. This section sets out the maximum prices that you may charge on all sales that you make as a processor. Before determining your maximum price for any sale you should first refer to the definitions in paragraph (f) of this section in order to determine whether such sale is being made from a processing plant, a warehouse or a store. For all sales by you as a processor your maximum price shall be the sum of the following:

(a) The appropriate base price per ton determined in accordance with the provisions of section 8; plus

(b) Your transportation cost, if you deliver the processed grain to your customer at a point other than the processing plant; plus

(c) The appropriate markup for sacks or containers determined in accordance with the provisions of section 15, if you furnish sacks or containers; plus

(d) The appropriate processing markup determined in accordance with the provisions of section 9; plus

(e) The applicable one of the following merchandising markups:

(i) For sales from the processing plant;

\$3.00 per ton if sold to a feeder in carload quantities;

\$4.00 per ton if sold to a feeder in less than a carload quantity;

\$1.50 per ton if sold to any person other than a feeder in carload quantities;

\$2.50 per ton if sold to any person other than a feeder in less than a carload quantity; or

(ii) For sales from a warehouse, not located at your processing plant, into which you have unloaded the lot after transporting it from your processing plant:

\$3.00 per ton if sold to a feeder in carload quantities;

\$5.50 per ton if sold to a feeder in less than a carload quantity;

\$1.50 per ton if sold to any person other than a feeder in carload quantities;

\$4.00 per ton if sold to any person other than a feeder in less than a carload quantity; or

(iii) For sales from a store into which you have unloaded the lot after transporting it from your warehouse not located at your processing plant:

\$3.00 per ton if sold to a feeder in carload quantities;

\$8.00 per ton if sold to a feeder in less than a carload quantity;

\$1.50 per ton if sold to any person other than a feeder in carload quantities;

\$4.00 per ton if sold to any person other than a feeder in less than a carload quantity.

(f) As used in this section the following terms shall have the following meanings:

(1) "Processing plant" means all the facilities operated as a unit at one location at which processed grains are produced.

(2) "Warehouse" means all the facilities operated as a unit at a location, other than the processing plant, at which processed grains are first stored after shipment from the processing plant and from which processed grains may or may not be sold.

(3) "Store" means a place of business not located at or operated as a unit with a processing plant or warehouse.

(4) For the purposes of this paragraph (f) a place shall be deemed to be operated as a unit at one location if it is operated either:

- (i) In one building, or
- (ii) In two or more adjoining buildings, or
- (iii) In two or more buildings, although not adjoining, if such buildings are located on the same or adjoining parcels of land owned, leased or otherwise controlled by the seller. Such parcels of land shall be deemed to be adjoining even if they are separated by an intervening street, alley, highway, lane or railroad right-of-way.

SEC. 11. *Maximum prices for sales by persons other than processors.* The maximum price for any sales of processed grains by you as a jobber, wholesaler or retailer shall be your supplier's maximum price on the sale and delivery to you, plus your transportation costs, if any, and the appropriate one of the following merchandising markups:

- (a) If you are a jobber, \$0.75 per ton.
- (b) If you are a wholesaler, \$2.50 per ton, except that on a lot which you have transported from your warehouse and unloaded into a store not located at your warehouse, you are acting as a retailer and you may add \$6.50 per ton on sales to feeders.
- (c) If you are a retailer,
 - (i) \$2.50 per ton for sales in a carload quantity;
 - (ii) \$2.50 per ton for sales in less than a carload quantity when not unloaded into your warehouse or store prior to such sale; or
 - (iii) \$4.00 per ton for sales in less than a carload quantity if unloaded into your warehouse or store prior to such sale.

SEC. 12. *Maximum prices for sales by importers.* When you sell processed grains as an importer, you will be either a wholesaler, jobber or retailer according to the manner in which you sell such processed grains.

(a) *Maximum prices for purchases by importers.* If you are an importer, the maximum price at which you can purchase any lot of imported processed grains shall be the sum of the base price of the standard grade of grain or grains which were processed, determined under the applicable supplement or regulation, at the point of entry at the time of the sale of the processed grain, plus the sum of \$2.50 per ton.

(b) *Maximum prices for sales by importers.* If you are an importer, your maximum price for the sale of any lot

of processed grains shall be determined under Section 11 or Section 13 of this supplement by substituting your maximum purchase price as computed in this section for "your supplier's maximum price".

SEC. 13. *Maximum prices for sales by all other sellers.* If you are a seller not specifically provided for under any preceding section of this regulation, your maximum price for the sale of processed grains shall be your supplier's maximum price on the sale and delivery to you, plus the transportation charges actually incurred in moving the processed grains from your store or place of business to your buyer's receiving point.

SEC. 14. *Limitations on total markups of merchandisers to be included in a maximum price.* In order to prevent undue accumulation of markups for distributive services, the maximum price of any lot of processed grain shall never include more than one permitted markup of a jobber, wholesaler and retailer, irrespective of the number of said persons of each class who may have handled the lot in question; *Provided, however,* That the markups taken by a processor under section 10 (e) (ii) or section 10 (e) (iii) shall be considered as a markup taken as a wholesaler or retailer, as the case may be.

SEC. 15. *Increases for sacks or other containers.* If you furnish the sacks or other containers in connection with the sale and delivery of any sacked quantity of processed grains you shall use one of the following methods of computing your maximum markup for such sacks:

- (a) A markup of \$3.25 per ton for textile sacks; or
- (b) A markup for sacks or other containers not exceeding the lawful maximum price thereof at the time of sale; or
- (c) If not subject to price control the reasonable value thereof at the time of sale.

This revised supplement shall become effective September 26, 1945.

Chapter XVIII—Office of Economic Stabilization

[Directive 81]

PART 4003—SUPPORT PRICES; SUBSIDIES
SURPLUS PEARS, 1945 SUBSIDY PAYMENTS

The Secretary of Agriculture having submitted certain information and recommendations to me on September 6, 1945, with reference to a program for the payment of subsidies on surplus pears produced in 1945, I hereby find and determine that the purposes of the hold-the-line order, specifically, the policy established by Executive Orders 9250, 9328 and 9599 (10 F.R. 10155) will be effectuated by the payment of a subsidy to equalize, to the extent necessary, the excess cost incurred by canners through the shipment of pears from areas of surplus production to areas in which unused canning facilities exist.

¹ 10 F.R. 48, 521, 857, 293, 294.

Accordingly, the Secretary of Agriculture is hereby authorized and directed to absorb, by the use of Commodity Credit Corporation funds, the aforesaid excess cost incurred by canners through the shipment of pears from areas of surplus production to areas in which unused canning facilities exist.

(E.O. 9250 and E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599, 10 F.R. 10155)

Issued and effective this 14th day of September 1945.

[Directive 82]

PART 4003—SUPPORT PRICES; SUBSIDIES
PRUNE PROGRAM, 1945-1496 MARKETING SEASON

The Secretary of Agriculture in a letter dated July 20, 1945, and the Price Administrator in a letter dated July 27, 1945, submitted certain information and their recommendations to me relative to grower prices for natural condition dried prunes, fresh prunes for canning, freezing, and preserving, and prunes for fresh use, to be used in constructing ceiling prices applicable to the 1945 packs of these commodities. In approving grower prices for fresh and dried prunes, I find it necessary to issue this directive to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders 9250, 9328, and 9599.

A. I hereby find that:

(1) The following grower prices for prunes are above the legal minimum required to be reflected in maximum prices for fresh and processed agricultural commodities by section 3 of the Stabilization Act of 1942, as amended, and are necessary to insure the maximum necessary production of prunes in 1945 to meet essential requirements:

(a) Natural condition dried prunes at processors' customary receiving points:

(i) \$0.095 per pound basis for California Three-District dried prunes;

(ii) \$0.0925 per pound basis for California Outside-District dried prunes; and

(iii) For Washington and Oregon dried prunes, the same prices as those for California Outside-District dried prunes of comparable size.

(b) Fresh prunes for canning, freezing, and preserving at processors' customary receiving points; \$55.00 per ton.

(c) Fresh prunes for fresh use: \$76.43 per ton "mixed sales" basis.

(2) Maximum prices on sales of natural condition dried prunes are not now necessary to effectuate the purposes of the Stabilization Act of 1942, as amended, and Executive Orders 9250, 9328, and 9599.

(3) The maintenance, through use of funds of Commodity Credit Corporation, of approximately the present average level of maximum prices on sales of processed dried prunes to purchasers other

than government procurement agencies and other than for shipment to destinations or ports outside of the Continental United States will effectuate the purposes of the hold-the-line policy; and

(4) The establishment of maximum prices on sales of processed dried prunes by processors for shipment to destinations or ports within the Territories and Possessions of the United States at the same level as that applicable to the sales specified in A (3) hereof, through use of funds of Commodity Credit Corporation, will remove gross inequities.

B. The Office of Price Administration is authorized and directed to:

(1) Revoke present maximum prices governing sales of natural condition dried prunes;

(2) Revise present maximum prices governing processors' sales of processed dried prunes to:

(a) Government procurement agencies and to purchasers for export to destinations or ports outside Territories and Possessions of the United States on the basis of the cost and profit study, which was made by the Office of Price Administration relative to processors' margins, so as to reflect the grower prices specified in paragraph A (1) hereof; and

(b) Purchasers other than government procurement agencies and other than for export to destinations or ports outside Territories and Possessions of the United States on the basis of appropriate compensation for any increase in the legal minimum grower prices for 1945 above the respective legal minimum prices for 1944 and subject to such adjustments which the aforesaid cost and study, made by the Office of Price Administration relative to processors' margins, may indicate.

(3) Furnish to the Secretary of Agriculture the maximum prices established pursuant to paragraph B (2) hereof for the use of the Secretary of Agriculture in determining the appropriate rate of subsidy payment.

C. The Secretary of Agriculture is authorized and directed, through use of funds of Commodity Credit Corporation, to subsidize processors' sales of processed dried prunes to purchasers other than government procurement agencies and other than for export to destinations or ports outside Territories and Possessions of the United States, so as to enable such processors to pay the grower prices specified in paragraph A (1) hereof and to sell such processed dried prunes at the applicable maximum prices to be established by the Office of Price Administration pursuant to paragraph B (2) hereof. The appropriate rate of subsidy shall be determined by the Secretary of Agriculture after such applicable maximum prices shall have been established by the Office of Price Administration.

(E.O. 9250, E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599 (10 F.R. 10155)

Issued and effective this 14th day of September, 1945.

Economic Stabilization Director.

POLICY GOVERNING SALES BY RECON-
STRUCTION FINANCE CORPORATION

The purpose of this special order is to extend the scope of the machine tool price policy contained in Regulation No. 3 of the Surplus War Property Administration (9 F.R. 9870), which governs sales made by the Reconstruction Finance Corporation as a disposal agency. The Board has determined that these additional categories should also be brought within the SWPA price policy in the case of sales by Reconstruction Finance Corporation as a disposal agency.

Pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765, 50 U. S. C. App. 1611); *It is hereby ordered, That:*

S. J. CAMPBELL CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to paragraph (g) of Order No. 1052, under § 1499.159b of Maximum Price Regulation No. 188, it is ordered:

(a) *Manufacturer's maximum prices.* S. J. Campbell Co., 1335 Altgeld Street, Chicago 14, Illinois, may add an additional adjustment charge to its maximum prices for sales and deliveries to all classes of purchasers of the articles of wood household furniture which it manufactures and for which it had established maximum prices in effect prior to the effective date of this order. That additional adjustment charge shall be an amount equal to 3% of the previously established maximum prices as adjusted by paragraph (d) of Order 1052 under Maximum Price Regulation No. 188.

This additional adjustment charge may be made and collected on all sales and deliveries on and after August 13, 1945, but only if it is separately stated on each invoice. The adjusted maximum prices are subject to the manufacturer's customary terms, discounts, allowances and other price differentials in effect during March 1942 to each class of purchaser.

(b) *Maximum prices of purchasers for resale.* A person who buys an article covered by this order and resells it in

substantially the same form, may collect from his customer, in addition to his properly established maximum price in effect prior to the issuance of this order, an adjustment charge in the same amount as the additional adjustment charge herein authorized for and which he pays to his supplier. If he did not establish a maximum price for the article before the issuance of this order, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum price to be computed on the basis of cost, the reseller must find his maximum resale price (without the adjustment charge) by using as cost his net invoice cost not including any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to an ultimate consumer, this additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted prices are subject to each seller's terms, discounts, and allowances on sales of the same or similar articles. The adjustment charge authorized in this paragraph (b) is in addition to any adjustment charge permitted for wholesalers by Order No. 1052 under Maximum Price Regulation No. 188.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notification may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 19th day of September 1945.

Issued this 18th day of September 1945.

The adjustment charges listed above may be made and collected only if each is separately stated on each invoice. The adjusted maximum prices are f. o. b. factory, subject to a cash discount of 3 percent for payment within thirty days,

net sixty days, and are otherwise subject to the manufacturer's customary terms, discounts, allowances and other price differentials in effect during March 1942.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customers, in addition to his properly established maximum price in effect immediately before this order was issued, an adjustment charge in the same amount as the additional adjustment charge herein authorized for and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts and allowances on sales of the same or similar articles. The adjustment charge authorized in this paragraph (b) is in addition to any adjustment charge permitted for wholesalers by Order No. 1052 under Maximum Price Regulation No. 188.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 21st day of September 1945.

Issued this 20th day of September 1945.

Administrator.
